## Career Objectives

---

Looking for an entry-level developer role where I can apply my coding skills and learn new technologies.

## Skills

---

### PYTHON :

- Proficient in Python syntax, variables, data types, and control flow.
- Skilled in writing functions, using lambdas, map, and filter.
- Strong understanding of OOP concepts: inheritance, polymorphism, etc.
- Handled errors using try-except and custom exceptions.
- Read/write operations on text, CSV files.
- Worked with iterators, generators, decorators.
- Used regex for pattern matching and data validation.

### SQL :

- Good in Writing Queries.
- Proficiency in DDL, DQL, DML, TCL, and DCL commands.
- Well-read on RDBMS Concepts like Tables, Constraints, Normalization, etc
- Good on Joins.
- Learned on Subquery, Co-related subquery.

### HTML :

- Proficient in writing semantic HTML5.
- Experienced in structuring web pages with proper elements.
- Good in integrating multimedia (audio, video, and images).

### CSS :

- Proficient in writing clean and maintainable CSS3.
- Skilled in Flexbox and CSS Grid for responsive layouts.
- Good in using media queries for mobile-first design.
- Good Knowledge on CSS animations and transitions.
- Familiar with CSS frameworks like Bootstrap and Tailwind CSS.

**Frameworks :** Django, Bootstrap

**Developer Tools:** Git, VS Code, PyCharm, Eclipse

## Experiences

---

**Web Development Intern** - Infynow Software Solution LLP, Belagavi | June 2024 – July 2024

- Built responsive front-end pages using HTML, CSS, JavaScript, and Bootstrap
- Enhanced user interactions with jQuery and ensured cross-browser compatibility
- Designed dynamic UI components for a better user experience

## Projects

---

**Personal Finance Tracker** | Python, Pandas, Matplotlib, CSV

- Developed a finance tracking application to log and categorize transactions as income or expenses
- Implemented CSV-based data storage with input validation for data accuracy
- Enabled users to filter transactions by date range and view financial summaries
- Visualized income and expense trends using Matplotlib

**Travel and Tour Assistant | *HTML, CSS, JavaScript, Bootstrap, Python, SQL***

- Developed a full-stack web application to provide travel guides and tourist information
- Designed an admin panel to manage and update travel-related data efficiently
- Integrated search functionality for destinations, transportation (bus, train, flight), and hotels
- Created a structured database for seamless data retrieval and management

**Certifications**

---

**Python Full Stack Web Development – PySpiders**

**Achievements & Leadership**

---

- 5× Pratibha Puraskar Award for academic excellence
- Captain, College Cricket Team – Led the team to victory in inter-college tournaments

**Education**

---

2021 – 2024	<b>Bachelor of computer application</b>
Belgavi, India	<i>KLS Gogte College of Commerce BCA</i>
	<b>Aggregate: 79.10%</b>
2019 – 2021	<b>PUC</b>
Belgavi, India	<i>KLS Gogte College of Commerce</i>
	<b>Percentage: 69.17%</b>
2018 – 2019	<b>SSLC</b>
Belgavi, India	<i>Thalakwadi High School</i>
	<b>Percentage: 81.12%</b>

**Languages**

---

- |           |           |           |
|-----------|-----------|-----------|
| • English | • Kannada | • Marathi |
| • Hindi   |           |           |

**Declaration**

---

I hearby above information furnished is true.
